

Dear Comissoners:

I urge you to NOT support further concentration in the media industry. The public is best served by increasing the public's access to a variety of opinions and facts. Increasing ownership concentration will only serve to increase the control of large coroporate interests and decrease the variety of news and information available to the public. Remember, your duty is to protect consumers' interests and not the interests of corporate America.

Sincerely  
Jim Holm

Sincerely,

Jim Holm
